PHYTOMER

FROM THE SEA TO THE SKIN

At Phytomer we believe in the sea and in the infinite possibilities of the natural ingredients found in its depths. We believe that skincare is of paramount importance.

We believe that safety and high performance go hand-in-hand. That quality is our duty and our calling.

And because we believe, we create, for you and for thousands of spa professionals worldwide.

OUR FAMILY HISTORY

We develop high quality skincare... Made in Brittany, France

At Phytomer, three generations of passionate skincare experts have all had the same dream: to find ways to transform the sea into skincare. Our family-run company remains rofoundly attached to our region, Brittany, and its incredible biodiversity.

We develop and manufacture all our products in our laboratories on the Mont Saint-Michel Bay, using natural, organic, wild, and sustainably-grown marine ingredients. We oversee every step of the production process in our facilities, from the moment an active marine ingredient is discovered right up to manufacturing the final product.

Throughout, our standards meet the most stringent requirements in the world for safety and quality.

BEAUTY BY THE SEA

We believe in the exceptional benefits of the sea

The sea's incredible biodiversity makes it the richest in vital elements on Earth. Moreover, the sea has an extraordinary affinity with our skin's cells and it contains everything needed to restore and maintain healthy, beautiful skin. Phytomer turns the sea into skincare formulas and treatments that are renowned for their effectiveness.

In 1972, Phytomer pioneered sea-inspired beauty products when we introduced OLIGOMER®. Our extraordinary seawater concentrate was a worldwide first in skincare with its power to remineralize and revitalize the skin. OLIGOMER® strengthens and energizes the skin by restoring its trace elements and minerals.

This active ingredient remains an integral part of the Phytomer skincare line, which means everyone, everywhere, from seaside to city streets, can enjoy the incredible skincare benefits the sea has to offer.

STATE-OF-THE-ART LABORATORIES

We create innovative products with remarkable results

Our world-renowned laboratories and our research team of marine skincare experts are at the heart of our expertise. The team unlocks the sea's secrets in order to extract its most potent natural active molecules...and discover the beauty solutions of tomorrow.

The ingredients we use are carefully selected to ensure safe, high-performance products that are a pleasure to apply. Skin health has always been our top priority when formulating our products and we focus at all times on delivering visible and proven results.
